

# Sleepwalking

Nina

Embracing the night sky  
Hunting down the one who hurt my love  
Erasing a lifetime  
I walk alone I'm a lone wolf  
Watching it unfold observing it  
I'm just an outsider looking in  
How did it ever become so real  
I'm just a hunter and you're the kill

Slave of the night  
Sleepwalking  
Now I can sense you're near  
Coming my way  
Sleepwalking  
I feel both love and fear

Night after night  
Sleepwalking  
Now you can sense I'm here  
Leading your way  
Sleepwalking  
I live for blood and tears

You're searching for someone  
Who is gone and I can't change it now  
We are damned I can't change it now  
I can remember, I don't forgive  
I'm just an outsider looking in  
Fatal encounter, won't let you win  
I'm just a hunter and you're the kill

Slave of the night  
Sleepwalking  
Now I can sense you're near  
Coming my way  
Sleepwalking  
I feel both love and fear

Night after night  
Sleepwalking  
Now you can sense I'm here  
Leading your way  
Sleepwalking  
I live for blood and tears

Coming closer, heart is frozen  
eyes are wide  
won't regret if you hold me tight  
tonight  
Getting closer, mind is frozen  
shut your eyes  
You won't feel it,  
if I hold you tight  
tonight
