

Coldhearted

Nine Black Alps

Well if I wasn't alone,
Pick me out,
Try to tell me something.

Where the bodies come,
It's hit and run,
But you keep on talking.

And it's all in the way that you say it,
Yes it's all in the way that you try to reason how we got you here.

Showbiz more but tell me honestly,
Can't you see your just coldhearted?

Now we've found you out,
Put you down,
I see what you're thinking.

Still it's coming out,
I'm around,
I'll be wanting a sinking.

And it's all in the way that you say it,
Yes it's all in the way that you try to reason how we got you here.

Showbiz more but tell me honestly,
Can't you see you're just coldhearted?

Try to reason how we got you here,
Showbiz more but tell me honestly,
Can't you see your just coldhearted?
