Glorious

Nine Lashes

You made your way into the waters
The places that I could've drown
And when came the day that you found me
Heaven resounded

Though ties dragged me down to the darkness
You called me by name to the shore
Oh bless the day that you found me
Heaven resounded

So I will sing my song
Cause how can my heart not give praise
I was searching for hope
And you made a way

You are glorious
You bring life to us
You are mighty, savior
Risen from the grave

You are glorious
Shining bright for us
Your almighty, savior
One and only God
And we praise you [x2]

Found me right here in the dirt
Where my castle of clay is lost in the rain
You lifted my eyes to the heavens
And my heart resounded

So I will sing my song
Cause how can my heart not give praise
I was searching for hope
And you made a way

You are glorious
You bring life to us
You are mighty, savior
Risen from the grave

You are glorious
Shining bright for us
Your almighty, savior
One and only God
And we praise you [x2]

You are lord, you are king
You're the one who rescued me
You are worthy, for the glory
How I love your name

You are lord, you are king
You're the one who rescued me
You are worthy, for the glory
Jesus how I love you

You are glorious
You bring life to us
You are mighty, savior
Risen from the grave

You are glorious
(Glorious)
Shining bright for us
(Bright for us)
Your almighty, savior
One and only God
(One and only God)
And we praise you
(One and only God)
And we praise you
(One and only, one and only God)
