So much flavours I should do a Verzuz with weed strains
Call my watch Tinkerbell the way that bitch glow (Bling)
Bought my whole block chains like it's crypto (Ice City)
After hours I'm always with a freak

Boom
I'd rather keep my burner on me
Risk the bird than end up on a T-shirt
This life I live, I've always gotta stay alert
Forgive me Lord for all the christenings and the funerals
Where I've bought it into Church
I know it's brazy but my safety comes first (Trust me)
They wanna see my bubble get burst (Nah)
Isaiah 54, read the seventeenth verse (Amen)
Violations I take personally
I'll burn your skin way more than third degree
And you won't have to fly Turkey to get your surgery (Aha)
My niggas move certi, we're certified (Certified)
Me and bro was having shootouts in our suit and ties
Strike me down if that's a lie
I've been that guy and I'm still that guy (Still that guy)
Every night I thank the most high I'm still alive
Catch me outside, you better know it's close by
I don't take check, you know how man step (You know how man step)
We be killing them with success, that's probably why these niggas upset
They wanna dun man but man ain't done yet, pussies

Feeling like it's '99 again

Woo-woo

Now let me make sure that I'm decent
They say that they love me but I ain't seen them of recent
Care is not a word that's for a season
They must be on their monthly cah I used to see them every weekend
I do this for my nephew, uncle, niece and brother who's disabled
I've been tryna pass the blame, I cannot reach him
I can feel my higher powers weakened
Now I know the reason

All dem try kill me in my ends
