Married to the game, I do  
Twist in my cup, I do  
Only bad B's I do  
Spend a couple racks in a week, I do

Me and Muggy hopped out the Bentley truck  
Hoes on my table with empty cups  
They said Ice City fell off, you must be dumb  
I got ninety-nine problems, but a plug ain't one  
When my coke comes in, it's all pure  
Fam, there's no safety on this four-four  
Niggas shooting in the air, that's what they call war  
If I'm shooting in the air, there's pagans on the fourth floor  
Fam, I made Harlesden look pretty  
Me and Skrapz got a girl in every part of the city  
I was wrapping out kis  
Then I bought my daughter a piano from rappin' 'bout kis

Me and Key, we hopped out the Trackhawk Jeep  
Thots fly past, blast my tracks and beep  
They say C Block fell off, you must be tapped  
I got ninety-nine sweets for the scorps and MAC  
Me and Flava fam are pulling down hella trees  
Safety on the back of the grip, that's the lemon squeeze  
Pussies shooting at the ground get no respect  
If I'm shooting at the ground, I wax on the deck  
Lad, I made half of south Manny trap  
Me and Ziggy got nitties all over the map  
I had LH Post Office tracks  
Now my BM's Rollie'd up from these freestyle tracks
