Try imagine if you was me  
22 about to make a mil off of movin keys  
Me and Jaz up in Nike Town with like 5 G's  
You never seen my Air Forces I designed these  
Chillin on the block cah there's nothing to do  
Used to be dead broke I was stuck on a Q  
Nowadays I stretch coke turn 1 into 2  
Earrings look like egg yolks she's in love with the crew  
When I say I'm gonna squeeze a shell, I don't mean a snail  
Real G's in jail feel my words like they're reading braille  
I'm gettin' money now they say I best save  
I'm gonna pop 100 bottles at the next rave  
Make it back the next day  
Press yay, get paid  
My little nigga in charge will make the tek spray  
They got my niggas Cash and Hydro doin time  
30 years if that was me I'll probably lose my mind

Grind hard so I'm killin with fiends  
Don't blame me, the streets keep sellin me dreams  
I'm about that  
Money in the duffel pack, traphouse swallow wraps  
Squares cuttin, I eat off waffle stacks  
I'm in a different world b  
Can't see bars like no reception on the LG  
Tryna be good for my Mums sake  
Niggas link chicks, loved up while I'm up late  
I'm just tryna grind, pockets full, stuffed plates  
These dudes wanna die and go on nuff dates  
Besides that, out late, wake up early  
STD from the Queen I got her ps (mad)  
Every days the same on the thunder block  
Pissed that my bros doin time I wan bun the clock  
Fiends know I'm about, deliver like pizza  
What can I say my aura's white, Rita (no Rockafella)
