

Nervous

Nines

Something in your voice
Is tellin' me that you don't wanna leave until the mornin'
And that's ok with me
Cause Imma kill that pussy in the mornin' you'll be moanin'
Imma give you Amnesia
Lay you out and down
Have you screamin' down
When I break your damn hole
I ain't no angel and neither are you, no
I don't want no-one else just be you and we're good

Don't be nervous babe, don't be nervous
Don't be shy now, don't be shy
Don't be nervous babe, don't be nervous
Don't be shy
Tonight we're goin' all the way
Let me work my magic on you, girl
Don't be nervous babe, don't be nervous
Don't be shy now, don't be shy

I see them niggas with their new chains
That shit ain't even worth my bitch's shoe game
Her ex is hatin' cause I stole his girl
But that little nigga there can hold a shell
I know that nigga used to treat you wrong
I won't lead you wrong cause my Ps is long
Come to my yard and chill
Help me count this half a mil
Got the rollie on or the audemar
She see me pull up in that Porsche car
Plus she hear I fuck like a pornstar
Baby let me take off that sports bra
It feels like months, and we ain't spoke in days
I ain't gonna chase her but I hope she stays
Give me a chance, cause I'd be more than nice
Have you livin' like a footballer wife

Don't be nervous babe, don't be nervous
Don't be shy now, don't be shy
Don't be nervous babe, don't be nervous
Don't be shy
Tonight we're goin' all the way
Let me work my magic on you, girl
Don't be nervous babe, don't be nervous
Don't be shy now, don't be shy

Tryna make you my girl
No need to rush, I learned patience in jail
I give you a key to my yard
No more Nandos, we can eat the shard
Bring you overseas
Pose in sand, walks on the beach
Holdin' your hand, I know you probably heard that I get around
But I'm gettin' old, I need to settle down
But if I ain't with you, I'd rather be lonely
In the penthouse screamin', "free Stoney"
Stressed when I'm with them other hoes

When I'm with you it's like my problems go
[?] past, I got a past
But think about the future if we're gonna last
I swear down, to make you happy is my only purpose
So don't be nervous

Don't be nervous babe, don't be nervous
Don't be shy now, don't be shy
Don't be nervous babe, don't be nervous
Don't be shy
Tonight we're goin' all the way
Let me work my magic on you, girl
Don't be nervous babe, don't be nervous
Don't be shy now, don't be shy
