

Nightmares

Nines

From the dark see the light
Got my mind right
Tryna build some dreams from nightmares
Only my God that I fear
From the dark see the light
Struggle every night
Tryna build some dreams from nightmares
Only my God that I fear

When you was revising I was fluently grinding
Only food I'm co-signing
Always knew I'd be shining
I got a lady friend
Thinks I'm an ATM
Trapstar life eating breakfast at 8pm, straight facts
Me and Pac tryna make stacks
I don't wanna have to wait until the end of April to get it made back
Whoever thought we would have made it through these mad times
Made our own sign languages, they say it's gang signs (1 arda)
Pissed off cause my YG lost my nine
Flying birds, going studio ain't even crossed my mind
So if these pagans are hiding, how the fuck can I apply pressure
Call my nigga Sparks tell him wrap a O
Switchin up the garms like a fashion show
Might see me in Armani or some Hugo
Couple man tryna black bone me but it's cool though
My nigga got 30 years cause he made his 2 blow
He just wanna get to home but he ain't playing Ludo (3 Cash)
Nearly fucked up my life when I chopped Freddy
Might cop a Porsche when my crops ready
Hope it goes well, if it don't oh well
Still be on the strip with them 9 bars for wholesale
30 boxes on the table didn't know a deal
Bitches sell dreams too so I don't care how hoes feel

From the dark see the light
Got my mind right
Tryna build some dreams from nightmares
Only my God that I fear
From the dark see the light
Struggle every night
Tryna build some dreams from nightmares
Only my God that I fear

Only God that I fear
I ain't scared of no man I'm right here
My life's like a dream and a nightmare
I push circles out but I buy squares
Growing up I had Cica's no Nike Air's
It's only right I stunt now
Outfit cost one thou
Yeah you know I want in
Same time I want out
And where I'm from's foul
Got a lot of peers locked
Mum's cry cause their son died
That's a tear drop

That's a dear loss
I only fear God
Keep my enemies close
People I'm aware of
I thank God that I'm still on road
Yeah was in the dark lost my heart, gone cold
Girl in the car and she does [?]
She likes Ceasar salad never go on road
Flew down to Church Road
Then flew Bradford for a bird quote
Then went Armani for a fur coat
OT hold keys that we gon slaughter
They should come work for me, one order
Say your strips hot but my blocks warmer
I used to cop [?] now I shot corners
Trying not to make problems
Re-up on a flake often
[?], go hard
Smashing out these mixtapes
And you know I flip weight
I've never had a fixed wage
And I've come so far

From the dark see the light
Got my mind right
Tryna build some dreams from nightmares
Only my God that I fear
From the dark see the light
Struggle every night
Tryna build some dreams from nightmares
Only my God that I fear

From the dark see the light
Got my mind right
Tryna build some dreams from nightmares
Only my God that I fear
From the dark see the light
Struggle every night
Tryna build some dreams from nightmares
Only my God that I fear
That I fear
That I fear
