

Only One

Nines

Zooming in my fast car
'Cause I'm the only one, the only one
People wanna know

I was following an opp
Crime scene, had helicopters hovering the block
Uh, niggas out here begging, I'd rather rob
Like, fuck a GoFundMe, go find a job
These rappers are my sons, take note
Gucci Mane's Bart Simpson, I chain smoke
My accountant's on me cah I blew a mill
Told him, "Chill out, I'm 'bout to sign a movie deal"
Uh, a hundred bricks in the room
Stick got a body on it like a witch on a broom
Let the ting go, skrrt off in the wind
When I wipe the machine down, it ain't a workout in the gym
These rappers weren't getting dough
I can tell, they look broke in their first videos
Told Inchez that we're gonna tour the world next year
It's only right, we went through Hell to get here
It's Nines

Zooming in my fast car
To the heavens, hope we get what we asked for
Set the pace, yeah, you know how we set bars
Everybody wanna know
'Cause I'm the only one
Made it on my own, I'm the only one
People wanna know about how we won
Knew it all along, I was never wrong, never wrong
'Cause I'm the only one
Made it on my own, I'm the only one
People wanna know about how we won
Knew it all along, I was never wrong, never wrong

All I needed was my freedom, a couple million and a machine gun
For all the dirt I done, I need a clean run
Catch me with some new season Celine on (New season)
And my bae been on
And my Glock 17 with the green beam on it
My team's full of stars like the sky
Built everything from the ground up like Dubai
Now it's business class when we fly (You know)
I came a long way from waking up with intent to supply
I jumped out the black Benz in Off-White (Yeah)
And stepped out of jail and got right
My success didn't happen overnight (Nah)
And I ain't reached the heights that I'm tryna reach yet (Trust)
I'm counting money, listening to Devils Rejects (Oh)
I always think two steps ahead
Tell my hoes they're the best just to boost up their head (Just to boost up their head)
Where was I when the bar got set? (Where?)
Someone tell them niggas that I haven't even started yet (Ha)

Now they wanna know, now they wanna know my name
They don't even know, they don't even know the pain

Zooming in my fast car
To the heavens, hope we get what we asked for
Set the pace, yeah, you know how we set bars
Everybody wanna know
'Cause I'm the only one
Made it on my own, I'm the only one
People wanna know about how we won
Knew it all along, I was never wrong, never wrong
'Cause I'm the only one
Made it on my own, I'm the only one
People wanna know about how we won
Knew it all along, I was never wrong, never wrong
