

# Roll With Me

Nines

She wanna come leave with me  
She said she wanna ride with me  
She wanna go to the telly get high with me  
Yeah, she said she wanna ride with me  
Well you can come fly with me  
Come fuck with a nigga you can ride with me  
She said she wanna ride with me  
She wanna go to the telly get high with me  
Yeah, she said she wanna ride with me  
Well you can come fly with me

She ain't a random link  
I might wife this one  
Fuck what the mandem think  
Certified trapstar and a pimp  
I got that white girl in that bando sink  
Bout to make a meal  
And when I brought them links from Tri imagine how them paigons feel  
Them niggas still rock stainless steel that's like 18 bills  
Ay yo that couldn't even pay my bills for a month  
I ain't broke but I miss cash  
With the pedal lights I was getting whip lash  
Cuh my whips looking crazy  
All because my whips getting crazy  
Niggas know I've been in packs through  
Said you got a peb line I should slap you  
Cuh I was with you all day you never clapped two  
All them stones there you're moving like a statue

She wanna come leave with me  
She said she wanna ride with me  
She wanna go to the telly get high with me  
Yeah, she said she wanna ride with me  
Well you can come fly with me  
Come fuck with a nigga you can ride with me  
She said she wanna ride with me  
She wanna go to the telly get high with me  
Yeah, she said she wanna ride with me  
Well you can come fly with me  
Come fuck with a nigga you can ride with me

I ain't going gym I put hoes and in  
I put the mac down when I was lotionin'  
The fans love it when I'm going in  
Too bad I just want my phone to ring, uh  
Niggas know I'm a big deal  
That's why them hoes give me dome like Springfield  
I'm just tryna get me a quick meal  
Couldn't give a fuck how a bitch feels  
Cause my last chick I had to kick her out  
And I still use her netflix account  
When we're in the rave I got them sticks about  
And I don't tuck it in I keep the pistol  
Cause I'll murder a chump  
And I told my connect I could do a hundred birds in a month  
Then I told my guy to come pick some keys

You can take long but don't flip my ps

She wanna come leave with me  
She said she wanna ride with me
