

# My Silence Within

Niobeth

My chant trapped in cold walls  
My tale covered with these dark clouds  
oh why your beauty's gone  
why you? why you my love?

I miss the blue of night  
I long for the hope to dance  
So blind to see but pain  
Waterfall sings despair

Shreds of distant lullabies  
Our promise died in vain  
Missed sunrise will never come

These chains of sorrow  
are too heavy to bear within  
My silence screams inside  
Trapped in a midnight beam

Shreds of distant lullabies  
Our promise died in vain  
From this nightmare  
I will never wake (ever)

Unblessed crying oceans inside  
My river of eternal mourn  
Play the last serenade  
Misty-eyed angel  
Erase my fairy tale

Where was my guardian angel  
To watch over me?  
(There was no guardian angel)  
Where is my little princess  
to draw our ship in the wind?  
(There'll be no little princess)

Trapped in a midnight beam  
No one can hear my silence within  
(Alone in this world voice inside)  
I'm already death my love  
There is no strength to run  
Nor will to hide  
(Nothing) can't save me from the past
