

# Husslas State Of Mind

Nipsey Hussle

I remember all those hungry nights  
I remember when they told me I would never  
See my name in those flashing lights  
But little did they know  
That when you're a star  
Means that you're chosen, yeah  
Let your light shine bright  
Get in a Husslas State of Mind  
Be who you are  
Don't lose your focus, no  
You better get on your grind  
Get in a Husslas State of Mind

I left the streets alone  
I had to take a chance  
I did it for my daughter  
I hope my niggas understand  
I can't believe I sat in it  
No matter of fact, I can  
See, first it was my dream  
Then it became it my plan  
I was always strapped  
That's cuz I gangbang  
My city teaches people use yo' pistol, not yo' brain  
Knee deep in these streets, I'm still tryna' make a change  
So everyday Nip Hussle live up to his last name  
Slauson Boy gang  
Through the joy and the pain  
Seen the best and worst days  
So we play 'em both the same  
Hit a lick don't celebrate  
Take a loss and I won't complain  
I know that I'm a boss and that's just a part of the game  
My new gold chain and 2 kilos of cocaine  
Put 'em both on the scale, they gon' come back the same  
And in my young life, the only rule that I obey  
Is All Money In, No Money Out everyday  
Hussle

I remember all those hungry nights  
I remember when they told me I would never  
See my name in those flashing lights  
But little did they know  
That when you're a star  
Means that you're chosen, yeah  
Let your light shine bright  
Get in a Husslas State of Mind  
Be who you are  
Don't lose your focus, no  
You better get on your grind  
Get in a Husslas State of Mind

Look  
Look, I wish we all made it as rappers and ball players  
But truth of the matter, it's...  
Look, I wish we all made it as rappers and ball players...  
Look, I wish we all made it as rappers and ball players

But truth of the matter, it's really based on your mind state  
If you want it, then grind daily  
Get it, then shine crazy  
First class, leather seats is how I'm flyin' lately  
I'm gettin' June money tryn' make July pay me  
Cuz if they violate me, who gon' feed my baby  
And I didn't tryna see the institution  
So my music is the pudding that the people see the proof in  
Started at the bottom  
Said I couldn't do it  
Now I'm lookin' like a problem  
Somebody call Houston  
Ask yo' favorite rapper  
Bet he'll tell you I'm the future  
I'm the streets and in the booth  
I turn my life into a movie  
And yea I did dirt  
But I believe in God  
I beat a couple cases  
And every single odd  
That was stacked up against me  
I put on my for my city  
Now every time I fuck inside the roof I'm makin' history

I remember all those hungry nights  
I remember when they told me I would never  
See my name in those flashing lights (Hussle)  
But little did they know (It's all hood tho)  
That when you're a star (yea, yea)  
Means that you're chosen, yeah  
Let your light shine bright  
Get in a Husslas State of Mind (Hussle)  
Be who you are  
Don't lose your focus, no  
You better get on your grind  
Get in a Husslas State of Mind
