

## Perfect Timing

Nipsey Hussle

Check me out!

Look...

I know perfect timing feels like I'm too late  
And I know I'm still great in spite of my mistakes  
You know it's authentic, every rhyme I say  
My only regret is I made niggas wait  
See, ain't too many like us, we like vintage Bape  
And I don't fuck with busters, I can't integrate  
Grew up with these killers in my living space  
Lotta niggas folded through them village days  
Citywide, gang and junction police raids  
L.A. Times, Rollin 60s, made the front page  
I vowed to never let you ditch and seal my fate  
Sellin' dope with hopes to graduate to real estate  
I knew I was drummin' to a different beat  
Felt it in my stomach, I was just unique  
We decided we gon' let these digits speak  
Then we turn Slauson into Venice Beach  
S 600 Maybach, platinum dealer plates  
Wake up in this penthouse to the cityscape  
You know it's authentic, every shit I say  
I knew self destruction ain't the only way  
Sometimes perfect timing feels like I'm too late  
But I know you're still great in spite of your mistakes  
Before you run your race you gotta find a pace  
Just make sure you cross the line and fuck the time it takes  
I got out the county jail 2008  
Couple months I dropped the tape then I was on my way  
My first single out it set the streets ablaze  
On location shot that video in front the cage  
Tryna find my way through this fuckin' maze  
Every concert, hundred niggas on the stage  
I'm still active so it's really just another day  
Promoters paranoid to book you, that affects ya pay  
And when you stop eatin' that affects your weight  
And when you get hungry that affects your brain  
See me I'm not trippin' I respect the game  
I hope y'all do if I can't make I'm gon' take your chain  
See ain't too many like us, we like vintage Bape  
And I don't fuck with busters I can't integrate  
I know perfect timing feels like I'm too late  
But every single time I drop they tell me I'm the great
