

## Status Symbol 3

Nipsey Hussle

Almost forgot what I was doin'  
Almost forgot where I was goin'  
I been driving, I been smokin'  
Almost forgot what I was doin'  
Almost forgot what I was drinkin'  
What the hell have I been thinkin'

Now I'm just ridin' through the city  
Now I'm just ridin' through the city  
And ain't nobody rollin' with me  
And ain't nobody rollin' with me  
It ain't a problem, I'm gon get it  
It ain't a problem, I'm gon get it  
This is a trip, trip, trip, trip  
Ridin' 'round smokin' by myself  
Don't you know I do it so well  
Dollar signs all on my head  
Rollin' solo, dolo, this a trip, trip, trip, trip

Almost forgot what I was doin'  
Almost forgot where I was goin'  
I been drivin', I been smokin'  
Almost forgot what I was doin'

What the hell have I been thinkin'

Rappin' for my section, Roll with my protection  
Who gon' die next? Ain't tryna get elected  
Ridin' by myself, time for self reflection  
I feel like a young boss nigga that's thankful for his blessings  
I can't even lie, I ain't even flexin'  
Block for me black man, know they tryna stretch us  
I ain't tryna preach, I ain't tryna lecture  
When you make your first mil' in cash, you gon' feel the pressure  
Just wanna feel the thrust, wanna feel the texture  
Wanna feel the drop top breeze, wanna feel successful  
Wanna change the game, never chase a message  
Never stop grindin', cherish no possessions  
We ain't get accepted, we just reinvested  
Things that I expected 'cause we ain't even set trip  
60th to Megan, Choppers for protection  
FBI invests us, but they can't arrest us  
Almost (almost)

Almost forgot what I was doin'  
Almost forgot where I was goin'  
I been driving, I been smokin'  
Almost forgot what I was doin'  
Almost forgot what I was drinkin'

Now I'm swervin', yeah I'm swervin'  
Now I'm splurin', yeah I'm splurgin'  
On purpose, on purpose  
It's a trip, trip, trip  
Turn the headphones up for me G  
Just a little bit lower

Always had the passion, nigga this a classic  
How we came from nothing, went and got established  
Livin' like a savage, tryna make some magic  
Everybody stallin', tryna take the sandwich  
I know it's elaborate, a nigga just imagined  
Felt the right to ask it, we can make it happen  
Weavin' through the traffic, I can take you back then  
Everything I said I meant, I was never cappin'  
I was never scared to stand, front line with MAC 10's  
Raise and shoot at black men, never felt the satisfaction  
When I seen the game collapsin', guess they took the rules and wacked it  
Started movin' at a different frequency and it got me livin' lavish  
All my partners steady passin', tryna wiggle through this madness  
Tryna fight this gravity at time and I swear I could feel it pull me backward  
Puttin' thousands on they caskets, tryna pick the right reactions  
I appreciate the process, but I'm so conflict about the status

Almost forgot what I was doin'  
Almost forgot where I was goin'  
I been driving, I been smokin'  
Almost forgot what I was doin'  
Almost forgot what I was drinkin'  
What the hell have I been thinkin'

Now I'm just ridin' through the city
