

# Everything

Nitin Sawhney

She whispers all her secrets  
Untie probs in her dreams  
The people walk in rhythm  
To hear the traffic sings

She  
In this love  
She  
Off this love  
We  
For this love  
Is everything from you to me

Last night he tasted blood  
With stars around his head  
The people walk in rhythm  
They paint the traffic red

She  
In this love  
She  
For this love  
We  
Off this love  
Is everything from you to me

The truth is glassy eye  
'N still shakes above the hair  
Always shaking shaking  
There there there there

She  
Off this love  
She  
For this love  
We  
In this love  
Is everything from you to me

Exit to the stage  
Exact (it takes??) every word  
Exact every word  
Exact every girl

We stumble the lie  
'N you stumble the lie  
We stumble the lie

He search for a long time  
He search for a long time  
He's looking for an answer  
Looking for an answer  
??? for love instead  
??? for love instead  
Longing to the heal  
Longing to the heal

Wish I can wish I can get in  
Wish I can wish I can get in

I'm a little baby  
I'm a little baby  
I'm a little baby

She  
Off this love  
She  
For this love  
We  
In this love  
Is everything from you to me

She  
Off this love  
She  
For this love  
We  
In this love  
Is everything from you to me

Stumble the lie  
She whispers all her secrets  
Look for a long time  
Untie probs in her dreams  
Look for a long time  
The people walk in rhythm  
Looking for an answer  
To hear the traffic sings  
Looking for an answer  
Last night he tasted blood  
??? for love instead  
With stars around his head  
??? for love instead  
And in a flash he saw her  
The answer came in red
