

# Bring It Down

Nitro

It's 9 o'clock and it's time to rock  
We'll hit the stage and baby we'll never stop  
We'll rock you hard, then we rock you harder  
We'll thrash you fast and shatter glass

On the stage, got to rage  
Born to rock, never stop  
Animals in our cage  
Never (never) never (never) never (never) stop

Wow, bring down the house tonight  
Wow, bring down the house tonight  
Wow, bring down the house  
Bring it down

It's getting hotter and we start to sweat  
We're getting rowdy baby, that much I can bet  
Cause we're the baddest boys around  
Just wait and see, when we play your town

On the stage, got to rage  
Born to rock, never stop  
Animals in our cage  
Never (never) never (never) never (never) stop

Wow, bring down the house tonight  
Wow, bring down the house tonight  
Wow, bring down the house  
Bring it down

Bring down the house  
Bring down the house

Wow, bring down the house tonight  
Wow, bring down the house tonight  
Wow, bring down the house  
Wow, bring down the house

On the stage, got to rage  
Born to rock, never stop  
Animals in our cage  
Never (never) never (never) never (never) stop  
Bring down the house
