

## Double Trouble

Nitro

Heads I win, tails you pay  
You've got the stuff - no way  
You're gonna lose and there's no way out  
Cause I'm the one your mother warned you about

Ready or not, here I come, better run

Cause you know you're in trouble, in double trouble  
Cause I'm a six-shooting mother and I'm ready to blow  
Cause you know you're in trouble, in double trouble  
Cause you lit my fuse and I'm gonna explode

The lights go out on judgement day  
You think you're tough, baby no way  
You're gonna lose and there's no way out  
Cause I'm the one your mother warned you about

Ready or not, here I come, better run

Cause you know you're in trouble, in double trouble  
Cause I'm a six-shooting mother and I'm ready to blow  
Cause you know you're in trouble, in double trouble  
Cause you lit my fuse and I'm gonna explode  
Cause you know you're in trouble, in double trouble  
Cause I'm a six-shooting mother and I'm ready to blow  
Cause you know you're in trouble, in double trouble  
Cause you lit my fuse and I'm gonna explode

The blackened sky fills your heart with emptiness and pain  
Fills our heart with desperation, you're the only one to blame  
I blame it on you, you better believe me  
Cause there's nowhere to run, nowhere to run, run or hide

Ready or not, here I come, better run

Cause you know you're in trouble, in double trouble  
Cause I'm a six-shooting mother and I'm ready to blow  
Cause you know you're in trouble, in double trouble  
Cause you lit my fuse and I'm gonna explode  
Cause you know you're in trouble, in double trouble  
Cause I'm a six-shooting mother and I'm ready to blow  
Cause you know you're in trouble, in double trouble  
Cause you lit my fuse and I'm gonna ...  
Cause you know you're in trouble, in double trouble
