Fighting Mad

Nitro

You never crossed me, I hope you never will
Backed in a corner, I'm force to kill
Don't say I haven't warned you, you're fucking with your life
Nothing can save you, not even a knife

I'm screaming with pleasure, you're screaming with pain
When I'm through with you, you'll never be the same
My fist, hard as steel, gonna ram it through your head
Beat you like a dog, you're gonna wish you were dead

Fighting mad
Because I'm fighting mad
Because I'm fighting mad
Fighting mad
Because I'm fighting mad
Because I'm fighting mad

Walking the streets, I am death stalking my prey
Marked for humiliation, you got into my way
Blood stained streets, it ain't mine, cause I don't bleed
Prisoner of war, you'll never be freed

Guns will not help you, they're useless you'll see
Go ahead, pull the trigger, bullets don't faze me
One thing to remember, you are but a fly
I am the swatter and you're gonna die

Fighting mad
Because I'm fighting mad
Because I'm fighting mad
Fighting mad
Because I'm fighting mad
Because I'm fighting mad

Fighting mad
Because I'm fighting mad
Because I'm fighting mad
Fighting mad
Because I'm fighting mad
Because I'm fighting mad

Fighting mad Fighting mad
Fighting mad Fighting mad
Fighting mad Fighting mad
Fighting mad Fighting mad
Fighting mad Fighting mad
