Heroes Arise

Nitro

I never thought one day I would get that kinda chance
There is no way that I will let it slip it out of my hands
Staring at a ceiling fan, remembering the pain
There's so much I could lose now, but so much more to gain

Can't stop and won't stop, the stakes are too high
This is more than a game
No sleep and no rest, we believe in this dream
It will come true one day

We will be heroes, the moment has arrived
We fight the biggest battle of our lives
We will be heroes, the last ones to survive
We came to stay until the end of time
Let the heroes arise

Never thought the day would come, her eyes would be on me
There's no way I will lose now, I'll shine in victory

Can't stop and won't stop, the stakes are too high
This is more than a game
No sleep and no rest, we believe in this dream
It will come true one day

We will be heroes, the moment has arrived
We fight the biggest battle of our lives
We will be heroes, the last ones to survive
We came to stay until the end of time
Let the heroes arise
Let the heroes arise
Let the heroes arise
Let the heroes arise

It is what it is, I'ma get it
And I'ma push push push it to the limit
I don't do it for the fame or credit
But I'm gonna be the rookie of the year when I finish
You don't want it, I want it, then I'ma take it and I'm gonna make it
Facing the dangers in ways that will turn into celebrations
I am courageous and may just be the greatest alive
I'll become a sensation when the heroes arise

We will be heroes, the moment has arrived
We fight the biggest battle of our lives
We will be heroes, the last ones to survive
We came to stay until the end of time
Let the heroes arise
We will be heroes, the moment has arrived
We fight the biggest battle of our lives
We will be heroes, the last ones to survive
We came to stay until the end of time
Let the heroes arise
