

Apple Orchard

Nits

L. a trick-a-sunlight
Falls down like the rain
Enters through the cornea
Leaves inverted image in my brain
Overhanging clouds
Fly into my room
Percolate to alcohol
And fall down with a boom
And I will laugh

L. a trick-a-sunlight
You'll never know my name
You can see this bicycle
Turning in the rain
And I will fall
Fall

I lay down (apple orchard)
Do I hear my name (is falling down)
(Lay me down)
The apple orchard (apple orchard)
Do I hear my name (is falling down)
(Lay me down)

L. a trick-a-sunlight
Came into my room
Tiptoed through the silent night
And fell down with a boom
And I was laughing

Apple orchard, lay me down
When it's late at night
(Late at night I lay me down)
Apple orchard, lay me down
When it's late at night
(Late at night I lay)

Apple orchard, lay me down
(Apple orchard)
When it's late at night
(Lay me down)
Apple orchard, lay me down
When it's late at night
(Lay me down and cry)
