

The Hole

Nits

Into a town
Into a street
Into the house
There's a hole

Into a room
In a wall
There's a hole

The cloud on a lake
Comma of the world
There's a hole
There's a hole
In my heart

She looks at me
As if I were a mirror
There's a hole
There's a hole
In my heart

I saw the sky and the stars
Saw the trees and the leaves
There's a hole
There's a hole
In my heart

Look at this town
Look at this street
Look at this house
Look at this wall
There's a hole
There's a hole
In my heart

I see the wall
I see the room
See the house
See the street
See the town
And there's a hole

Black crows in a yellow field
A window with a thousand keys
There's a hole
There's a hole
In my heart

I saw this child on a beach
Saw the rain on the leaves
There's a hole
There's a hole
In my heart

And it falls
Like the rain
In a forest

It falls like rain
In our hearts
