Lightning Man

Nitzer Ebb

It seems some story was told But what is there to tell? Well, some song had been sung But none of it sings

So let's spell it out
A, B, and C
Up and down from A is to Z
You meant zed, you said zed

From nothing to something And something for nothing From no one to someone From someone to same

Same old thing
The only way out
Leads to no way back
What can you do?

Easy, you shove it back where it came Easy, you never let yourself down

So you got up and you ran
And you run to get up through Chinatowns
To slip right down
Soho's a town in every downtown

Drinking friends who've drunk in bars Whose drunken friends in drinking bars Waiting for the lightning man to strike

Icing on your cake
Well, if I knew you were comin'
I'd cut you a piece

Baby, come to daddy Baby, come to daddy Baby, come to daddy

Daddy's come to baby Daddy's come to baby Come to daddy, baby Baby, come to daddy

Easy, you shove it back where it came Easy, you never let yourself down

You better be careful out there You be careful out there You better be careful out there You be careful

You ain't gonna get far You better be careful out there You ain't gonna get far You ain't gonna get far You be careful out there You ain't gonna get far You ain't gonna get far You be careful out there

You better be careful out there We're gonna pluck you off You better be careful out there You ain't gonna get far

You ain't gonna get far We're gonna pluck you off We're gonna pluck you off We're gonna pluck you off

Baby, come to daddy Daddy's come to baby Daddy's come to baby Come to daddy

Come to baby
Baby, come to daddy
Daddy's come to baby
Come to daddy

Easy, you shove it right back down Easy, you never listen to this
