

Once You Say

Nitzer Ebb

once you say
they can come over
and then they'll come

mixed up mixed down
left right is the only sound
this is the long that was the short
look at us we're at the last resort
listen

can't stay you can't leave
judge and jury with no relief
excuses have no uses
you want control but your strength reduces

once you say
they can come over
and then they'll come

opened up you shut them down
left right is the only sound
this is the long that was the short
look at us we're at the last resort
listen why don't you say fire in the hole

left right left left right left

move that body move that body

there's a fire in the hole
and it's burning up right
there's a fire in the hole
it's going burn all night

once you say
they can come over
and then they'll come

left right left left right left
