

# Loud Blunt

Nivea

At the end of the day, a long long day  
Wanna lay my down, get away  
Don't wanna stress just clear my mind  
So let me be the one u call  
In the morning or day or late at night  
You're the only one I want to come inside  
Its just you and me  
So let's take off and touch the sky

I just wanna kick back with you  
Take a sip a chillex with you  
We gone get the grindin  
I'll light all the candles  
Wanna smoke a loud blunt with you

I just wanna kick back with you  
Take a sip a chillex with you  
We gone get the grindin  
I'll light all the candles  
Wanna smoke a loud blunt with you

Mmm let's relax and fade, fade away  
Could u worry bout today what it feels to play  
You know I got a love affair with the clouds, so lay me down and make me smile  
Sippin in red wine feels so right  
Roll it up real good but too tight  
Ain't nobody stoppn by  
So we can talk all night

I just wanna kick back with you  
Take a sip a chillex with you  
We gone get the grindin  
I'll light all the candles  
Wanna smoke a loud blunt with you

I just wanna kick back with you  
Take a sip a chillex with you  
We gone get the grindin  
I'll light all the candles  
Wanna smoke a loud blunt with you

Baby it's hard to sit back and just breathe  
We can't blame the space babe  
Look at how beautiful you and me feel right now  
Got a hold on me and I'm not coming down  
I'm enjoying the pleasure of your company  
One and a two now we startn on three  
Elevated is how we should be just want to thank u for taken this vaca with me

I just wanna kick back with you  
Take a sip a chillex with you...
