Nivea

It's cold in the winter out here I feel my hands harden  
Dreamin' and wishing you near but this shit here ain't workin'

Hello Virginia  
Guess this is home  
I could surrender  
But I won't  
Embrace I'm at a low place  
Damn I'm tired of hoping  
Hello Virginia  
You lookin' good  
I still remember I  
Told you I would  
I told you I would wait for ya  
Stick it out  
Keep it on the low  
Glue you in a frame  
And then I'll put you up for show in Virginia  
Virginia  
Oh, in Virginia  
Oh my, oh my, oh my  
What have we done  
Yeah...

I'm left in the dark  
Don't know how to feel  
Tell me you gon' fix it  
But you just up and leave for

Virginia  
Guess this is home  
I could surrender  
But I won't  
Embrace I'm at a low place  
I'm so tired of hoping  
Hello Virginia  
You lookin' good  
I still remember I  
Told you I would  
I told you I would wait for ya  
Stick it out  
Keep it on the low  
Glue you in a frame and then I'll put you up for sure in Virginia

This was all for you boy I'll be honest  
To love you like I do it must be destined  
I'll be on my way  
To meet ya  
In these designer frames

Love letter

Baby, I just want your love  
Mmmmm, give it to me  
Baby, I just want your love

So if you really want me  
You need to make a choice  
Cause this is hurting  
Staying in this void  
And I can understand if you choose to choose her  
But you can't leave me hanging in loo for your love
