

# Finally

Niykee Heaton

From your lips I breathe  
Every word spoken  
I'll admit I believed  
True love was just a notion  
I once wished we'd meet again one day  
I was hoping you were wishing the same

I've grown tired of being so alone  
I feel like me and you could grow old  
Just passing time like love notes I've been holding out  
For someone, for some love

Now we can dance, we can dance  
Because I've found you finally  
Now at last we can sing  
We can sing what I've held inside me  
All this time you've been mine  
You just didn't know 'til that night  
When I let you find me  
Now we can dance, finally

It was cold that night  
When we met again but  
All I know is fire  
Ignited in my chest as  
Just in time I swept you up  
And held you against my heart  
And it was like they've never been apart

Now we can dance, we can dance  
Because I've found you finally  
Now at last we can sing  
We can sing what I've held inside me  
All this time you've been mine  
You just didn't know 'til that night  
When I let you find me  
Now we can dance, finally

Now we can dance, we can dance  
Because I've found you finally  
Now at last we can sing  
We can sing what I've held inside me  
All this time you've been mine  
You just didn't know 'til that night  
When I let you find me  
Now we can dance, finally

Now we can dance, we can dance  
Because I've found you finally  
Now at last we can sing  
We can sing what I've held inside me  
All this time you've been mine  
You just didn't know 'til that night  
When I let you find me  
Now we can dance, finally  
Now we can dance finally  
Now we can dance finally
