This ain't the love you wanted
This ain't the love you wanted
This ain't the love you wanted
This ain't the love you wanted
This ain't the love you wanted

Pretty little thing, you know
20 gold rings
You're so heavy in the paint
When you said my name
Knew I couldn't wait too long
Do I wanna stay? Who knows
Ask if me if it's fate, [?]
I know you like to play
I seen it in your game
You thought you playing chase
But I'm Cujo

Yeah, so I'm loving how you're looking at it
Touching, tryna push up on it, uh, oh no
Say you wanna get up at it, scheming at it
Get me at it, baby now, but damn, you close
Wanna be my baby right now
I'm not tryna be a lady right now

So I'll f**k you up one time, one time, one time
Let me f**k you up one time, one time, one time
Why don't you let me hit it one time, one time, one time
So I'll f**k you up one time, one time, one time

This ain't the love you wanted
This ain't the love, this ain't the love
This ain't the love you wanted

Club ain't even a thing, [?]
I'm not here to play, you know
f**k you tryna say?
Get up out my way, too close
'Fore we get away, hold on
Let me get a taste, too much
But now you wanna stay
Baby, I'mma play the part

Yeah, so I'm loving how you're looking at it
Touching, tryna push up on it, uh, oh no
Say you wanna get up at it, scheming at it
Get me at it, baby now, but damn, you close
Wanna be my baby right now
I'm not tryna be a lady right now

So I'll f**k you up one time, one time, one time
Let me f**k you up one time, one time, one time
Why don't you let me hit it one time, one time, one time
So I'll f**k you up one time, one time, one time

This ain't the love you wanted
This ain't the love, this ain't the love

This ain't the love you wanted

So I'll f**k you up one time, one time, one time
Let me f**k you up one time, one time, one time
Why don't you let me hit it one time, one time, one time
So I'll f**k you up one time, one time, one time
So I'll f**k you up one time, one time, one time
Let me f**k you up one time, one time, one time
Why don't you let me hit it one time, one time, one time
So I'll f**k you up one time, one time, one time
