

# England Uprise

Nizlopi

It's like this,  
If you don't get up, they' will keep us down  
From the moment you are born, they put a number on you  
They will tell you what to eat after they have modified it  
They will tell you how to dress after they have designed it  
They will tell you where to live, and how to live  
They will control your lives

But there is an alternative  
We can rise up and take control of our lives  
We who live here in this England  
Can use our soil to provide our food  
We can make clothes from Hemp  
We can bypass the blood-sucking corporate machine  
And live in love and unity in Å'dis time

We can do dis'  
Unite my people  
Unite...

England up rise  
England up rise  
Unite tonight  
England up rise!

No more to Tony Blair and Neo-liberalism  
No more of us slaving for global capitalism  
No more denying the beauty of who you really are  
No more wars for oil  
Fuck the mainstream media

No to Monsanto Nestle and factory farming  
No more to Trident and nuclear re-arming  
No more expanding on aviation and on roads  
No more to these old death giving modes

Yes to the Beatles and to George Monbiot  
Yes to FDM and to Gary Dunne's live Shows  
Yes to WOOFing and the festival scene  
And yes to the brave youth who build all our dreams!  
Yes to solidarity and internationalism

Tom Paine, George Orwell, Spiritual activism  
Yes to Rory Mcleod rambling through woods  
And to all you people whom from injustice make good!

England up rise  
Everyone up rise  
Time to overcome  
Everyone up rise!

We can change it for everyone  
Our generation can be the sun  
Love is revolution, you don't need a gun  
Make it happen together as one  
Cos love is just like oxygen  
Don't let our people get overrun

All people, all life under the sun  
Make it happen,  
What do we want to become?  
Beauty,  
Friendship,  
Justice,  
Everyone, everyone com'on

People up rise  
Everyone up rise  
Unite tonight  
Love up rise
