

Feel Inside

Nizlopi

Well I'm calling out through this ice age
The system is making our hearts cry
And the call in me to not put up with it
Is one I'd be a fool to deny

Cos the world is all lost
The poor are being destroyed
The rich are in charge
In a bulldozer

And we're on the edge
You and me know it's true
What we gonna do
Before our lives are over?

What I feel inside
Is not gonna let me fall down
What I feel inside
Is holding, is holding, is holding
To the truth tonight

And this holding pattern our culture's in
We all know this world is dying
And the people in charge they know it too
That's why they stole Iraq's oil and soon Iran's too

And I know we can march
I Know we can proclaim
The truth to power
Say "it's not in our name"
Show the men who bomb
Because of their fear and greed
That our love for each other
Is stronger than they ever believed

Come back
I'm so lost
And my heart is an aching hole
