

High

NJOMZA

Baby just light it up and take a puff
Hit it one more time 'til you get enough
And I'll be waiting right here
It's all for you my dear
Baby let's not fight
Let's set the mood right
Keep floatin' movin slow
Tonight you're winning we gon' get

High, high, high
We gon' get

High, high, high
We gon' get

Baby, if you would just let me
Make you feel the ecstasy
I'll show you what you've never seen
Ride all night, know what I mean
Maybe it's not right
But tonight you are my light
Keep floatin', movin' slow
Tonight you're winnin'
We gon' get

High, high, high
We gon' get

High, high, high
We gon' get

We gon' get high baby
I'mma be your lady
Got me goin' crazy
My eyes low, real lazy
While my mind is hazy
I'mma let you raise me higher

I won't let you touch the ground
I won't let you come back down

I won't let you touch the ground
I won't let you come back down

High, high, high
We gon' get

High, high, high
We gon' get
