

# Lucky

NJOMZA

Lemme say I love you right now  
Give you all your flowers right now  
I don't wanna wait till it's too late  
Let me tell you how I'm so proud  
Show you how I feel, I'll scream it loud  
I don't wanna wait till it's too late

'Cause after everything you had to go through  
You still had the fight within you  
And I can't believe that god chose me  
To know you  
To love you

I'm so lucky  
If you love someone let them know  
If you love someone let them know  
Don't let them go  
If you love someone let them know  
If you love someone let them know

I'm so lucky  
I'm so lucky  
If you love someone let them know  
If you love someone let them know  
Don't let them go  
Don't let them go  
Don't let them go  
If you love someone let them know  
If you love someone let them know

Wouldn't wanna do this solo  
Just look at where we are  
We came so far  
You're the only who understands  
I pray for the clock to move slow  
When I'm with you I need nothing more  
If you're feeling lost  
Grab my hand

'Cause after everything you had to go through  
You still had the fight within you  
And I can't believe that god chose me  
To know you  
To love you

I'm so lucky  
If you love someone let them know  
If you love someone let them know  
Don't let them go  
If you love someone let them know  
If you love someone let them know

I'm so lucky  
I'm so lucky  
If you love someone let them know  
If you love someone let them know  
Don't let them go

Don't let them go  
Don't let them go  
If you love someone let them know  
If you love someone let them know
