

# No One Is Spared

NJOMZA

It's not the same  
I call your name  
And hear no sound  
Supposed to swim  
But you dove in  
And then you drowned

I miss you  
I do (yes)  
It's true  
Left me confused (so confused)  
I do (I miss you)  
It's true

See it's not like I was blind  
It was there in plain sight  
That life is unfair  
There's no one left spared, no  
I got all this pain inside  
It won't ever feel right  
But I'll see you there  
There's no one left spared, no

These demons, they can get you  
Leave you bad juju  
Left with thoughts and prayers  
Lingering the air  
I hope we can let go  
When I die, it's peaceful  
When I die, let me go  
When I die, let me go

Leave me somewhere by the beach  
I'll be sipping something sweet  
Feel the sand in between my feet  
I'ma get a true release  
I'ma see you when I'm gone  
We'll be somewhere in the stars  
Paradise isn't so far  
I wish you could see tomorrow  
Tomorrow  
'Cause I...

I miss you  
I do (yes)  
It's true  
Left me confused (so confused)  
I do (I miss you)  
It's true
