

over and done

NJOMZA

Talk to me like you know me
Pick me up when I'm calling
Honestly you been acting real shady now
Talking crazy when I'm not around
Build me up just to break me down

Are we over and done?
Over and done
Over and done
Are we over and done?
Over and done
Over and done

Talk to me like you want me
Hit me up like you need me
Honestly
If it's the end then let's make it count
If you love me then tell me now
Build me up just to break me down

Are we over and done?
Over and done
Over and done
Are we over and done?
Over and done
Over and done

I know what it feels like to be lonely
Remember what it felt like when you told me
That I could be the one, yeah, be the only
Let me in just to kick me out
Build me up just to break me down

Are we over and done?
Over and done
Over and done
Are we over and done?
Over and done
Over and done
