

# tidal wave

NJOMZA

Lately, it's been hard to sleep  
You live in my dreams  
I've been drinking  
No celebration  
All I do is think of you

Oh no, here I go  
Swear I'm never gon' change  
Solo, so low  
Sinking deep in my brain

Ooh, ooh, need you

The shit that gets me by  
The shit that gets me high  
I'm drinking all my wine  
I pretend I'm fine  
Like a tidal wave

The shit that gets me by  
The shit that gets me high  
It's never quite what it seems

And all I do is think of you  
You're made for me  
You're killing me

It's quiet, I hear the clock tick  
Searching for the right fix  
I've been waiting  
Feeling myself fading  
All I do is think of you

(Save me)

Make up, tits up  
How you bailing on this?  
Bad bitch, your hoe average  
She won't do what I did

Ooh, ooh, need you

The shit that gets me by  
The shit that gets me high  
I'm drinking all my wine  
I pretend I'm fine  
Like a tidal wave

The shit that gets me by  
The shit that gets me high  
It's never quite what it seems  
(Seems)

All I do is think of you  
You're made for me (You're)  
You're killing me (You're)  
(You're)

You're made for me  
You're killing me

(You're)  
(You're)  
(You're)  
(You're)

All I do is think of you (Think of you)  
You're made for me  
You're killing me
