

# Final Warning

NLE Choppa

Dun, dun, dun  
NLE the Top Shotta got the bombs like Al-Qaeda  
Damn E, this shit exclusive  
Ayy, ayy

Never send a threat on the internet just to prove a point  
That dissin', don't get into that, we leavin' that to the informants  
Don't inform me about who informing, that's yo' final warning  
7.62s sting like a Bumblebee, he start transforming  
Send yo' homies on the drill, but they ain't never make it back  
Shoot up the scat, we left it flat, he died on the impact  
My shooter, he a gym rat, but never mentioned who he cracked  
We put you on the news, and I bet his family viewed that

Slide by myself before I call a nigga  
My fingernails dirty 'cause I'm still a gravedigger  
And we ain't cappin', don't ask if we never pulled a trigger  
And Goon steady putting Jimmy Glo up in his Swisher  
Never been the one to save the day, I'm the one clutchin' on the Drac'  
Make sure he don't get away, a opp the only thing I chase  
In a full race the back of his neck, hit the ground to decay  
Walk up to him, C Grape stood over, put one in his face  
Murkin' what my soul say  
I'm slidin' with this throwaway  
My heater for a cold day, leave a nigga in disarray  
Better stay up in the house like the nigga from That's So Raven  
Catch that nigga walkin' out, we in the bushes, we been waiting

Never send a threat on the internet just to prove a point  
That dissin', don't get into that, we leavin' that to the informants  
Don't inform me about who informing, that's yo' final warning  
7.62s sting like a Bumblebee, he start transforming  
Send yo' homies on the drill, but they ain't never make it back  
Shoot up the scat, we left it flat, he died on the impact  
My shooter, he a gym rat, but never mentioned til' we crashed  
We put you on the news, and I bet his family viewed that

Ayy, smilin' on my mugshot 'cause I know my bond money good  
I ain't missed a heartbeat, I'm out the next day, it's understood  
To the Broward County Police, lick my nuts and suck my wood  
First day tray and nigga you start mugging, wish a nigga would  
Doing donuts in the SRT, I crashed into a tree  
Rolls truck the next week, money ain't been shit to me  
Ridin' with a full clip, but the gas tank on E  
Slidin' like a cruise ship, wet you up like a jet ski  
Livin' to a hundred and three, that's the OG Grape in me  
Auntie wanna pray for me, better pray for my enemies  
Life had gave me lemons so I start clutchin' the lemon squeeze  
Had a AR at 15, and two Glockes, two 23's

Never send a threat on the internet just to prove a point  
That dissin', don't get into that, we leavin' that to the informants  
Don't inform me about who informing, that's yo' final warning  
7.62s sting like a Bumblebee, he start transforming  
Send yo' homies on the drill, but they ain't never make it back  
Shoot up the scat, we left it flat, he died on the impact
