

# Sinking Slowly

NLE Choppa

I want it all (EMRLD), never felt this way  
I'm sinkin' slowly

My bitch be cool on whatever, fuckin' his bitch be better  
Different day, same weather, we can change the forecast together (Shit)  
Know you're tired of the same thing, same strokes gettin' lame  
Twin flames, I'm octane, shoot the club up close-range

Who it is if it ain't me? I'm the one that's gon' make it leak  
Scrunch your toes and grip the sheets, when you fuck him, think of me  
Coke-bottle shape, newborn face  
So pretty, it take the ugly days away (Away, away), yeah  
Brand-new watch for the time you lost (Let's go)  
Fuckin' with him, now you with a boss (Let's go)  
Had it with a whoop, but I shook her off  
You the one I told her don't worry about (Let's go, let's go)  
Every other day, I was fuckin' you crazy  
Tell your other nigga you been my lady (Yeah, yeah, yeah, yeah, yeah)

I want it all, never felt this way  
Never feel this way with you  
Swear a nigga better not play with you (I'm sinkin' slowly)

My bitch be cool on whatever, fuckin' his bitch be better

Twin flames, I'm octane, shoot the club up close-range

Swear a nigga better not play with you  
Never feel this way with you  
Lovin' you like catered food  
Know I might, when I die, want the love I got for you  
F&N load up, blunts pre-roll up  
He gon' die about that pussy, shit, I'll smoke him  
She peed and I dig it, she cream when I'm diggin'  
I ask her can she dig me? She in my pockets diggin'  
For sure, for sure, for sure, for sure  
She know whatever she say, it's gonna go

My bitch be cool on whatever (I want it all)  
Fuckin' his bitch be better  
Any day, any weather (Never felt this way)  
I'm sinkin' slowly (Change your forecast all together)
