

# THUG IT OUT

NLE Choppa

Nigga worked so hard to get you, just to fumble you  
How you let that lame shit humble you?  
Confused 'cause now you don't know what you wanna do  
Or what they want from you  
And you just want trips, dick and money  
They tell you that you changed but you ain't changed nothin'  
You need you hair did, nails did and some money

I fuck you like a gangster, put my hands around your throat (Put my hands ar

I know these hoes gettin' passed around like a remote (Like a remote)  
You know I can't be your nigga but I'ma keep you close

You just gon' have to thug it out  
When I can't be with you, gotta thug it out  
Textin' me, "I miss you", baby, thug it out

Swappin' spit while you takin' it, do it like I miss you (Like I miss you)  
Eye to eye contact, slow strokin' you and then I kiss you (Then I kiss you)  
When I think about her, I'ma leave you then try to forget you  
In too deep, just like when I'm in you, wanna stay in you  
But that's just the way it go, make you nut then hit the road  
I can't take you to these shows, different cities, different hoes that I kno  
w  
Came on me but you came up short, sorry, shawty (Sorry, shawty)  
I can't settle down 'til I'm 'bout fifty or forty (Forty)  
Be my friend, freak, wanna fuck me? Baby, just call me (Just call me)  
Keepin' it real, we more pimpin' women than you stallin' (Than you stallin')  
Tryna locate my heart, she askin' me, "Where your feelings at?  
'Cause mine been in my stomach, this a lot for me to digest  
I responded to my chest, I choose myself, you knockin' at it  
No response back

You just gon' have to thug it out
