

About Guilt

Nneka

(Shut your mouth, shut your mouth
'Cause you're talking too much, babe)

Close my ears, close my ears
'Cause you're, you're so loud
When you speak
When you speak, when you speak
You repeat, you repeat the pain

I, I don't wanna live this way
Guilt is a disease
You must forgive
If you are free
We need to see

Now, look at you, look at you
Used to be (Disease)
In the wilderness
But you yourself
I saw you cry
You don't wanna stay that way

Guilt is a disease
You must forgive
If you are free
We need to see

(I ain't complaining
I ain't complaining at all)

Guilt is a disease
You must forgive
If you are free
We need to see
