

## About Guilt

Nneka

(Shut your mouth, shut your mouth  
'Cause you're talking too much, babe)

Close my ears, close my ears  
'Cause you're, you're so loud  
When you speak  
When you speak, when you speak  
You repeat, you repeat the pain

I, I don't wanna live this way  
Guilt is a disease  
You must forgive  
If you are free  
We need to see

Now, look at you, look at you  
Used to be (Disease)  
In the wilderness  
But you yourself  
I saw you cry  
You don't wanna stay that way

Guilt is a disease  
You must forgive  
If you are free  
We need to see

(I ain't complaining  
I ain't complaining at all)

Guilt is a disease  
You must forgive  
If you are free  
We need to see
