

Beautiful

Nneka

Wake up every day we complain
What could build us is around us
But we only think to plain
Go too fast forget our pace,
Important is money and running ur ratrace
The little things around you
Could bring you joy if you see but
You are distracted by the world

Yeh we are created in a beautiful way
Yeh we are made by love and only love

Love is time we invest
In the things that make us grow
Just as love was the basis of
Gods creation just as nature shows
No matter what trials and
Tribulations you are going through
No matter how hard it seems,
How you live or how you look, yes yeh

You are made by the hands of god
You are so special and moulded with love
