

Stand Strong

Nneka

In the darkness I listen to the melody that life plays
It goes to my ears and my bones
It's a funny feeling that comes over me and stays, you know
In such moments I'm reminded that the gift of life is life itself
If you can ask god to help you you still got to help yourself
Cuz life ain't a bed of roses, be real
Just like the taken man minds of Moses

Hold on
Be strong
Go on
See we won't divide see we multiply!
Hold on
Be strong
Just go on

See we multiply see we won't divide!
There are complications that may occur
You may reach the highest level of confusion
Your life ain't excluded in them different stations
And before you may rise you may live you may cry sometimes you
may even think you will die but
There's a perseverance character
And the character you get from endurance it gives you
A perseverance character
And the character you get from endurance it gives you

Sometimes you feel
You're not at ease
So confused
You don't know
At times it's so, so much alone
But put your achievements together
And you should know
