

Walk Away

Nneka

You use your charms
So I can feel you
I can feel you
Your word is a lamp to my heart
You're my hiding place
My ship, my star
Let me become
So I can hear you
I can hear you

Can we walk away
When there is no hope?
Can we find the words
Controlling our minds?
When they hear the bombs
There is still no hope
Can we walk away
When there is no hope?

We lose our souls
'Cause we're not near you
Not near you
Confer your love
For I must be still
For there's so much noise
And so I do your will
Back in control
So we must find you
We must find you

Can we walk away
When there is no hope?
Can we find the words
Controlling our minds?
When they hear the bombs
There is still no hope
Can we walk away
When there is no hope?

Confer your love
For we must be still
For there's so much noise
So I choose your will

Now you must be still
