

Defector/ed

No Age

Chipping away
Aggression you lay
Chipped away intention

Always changed
Obsession's the same
Always switching direction

How times have changed
Tell by the way
The birds fly different directions

You're a broken leg
A knife with no blade
History of defection

Stripping away
Layers that you lay
Stripped away intention

Always erase
Obsession's the same
Always changing direction

How times have changed
Tell by the way
Face went a different direction

Like a radio wave
A bear with no cave
Designed to fade away
