Lock Box

No Age

Keys stuck in the lock box
Destroyed by substance
This key's so abstract
Not sure where it is

You can't be a ???
???
Sent into the sunlight
Your name's on the list

You don't know what happened here before

I've gone too mild
So many times before
This time it's different
Not sure what it's for

I can hear the footsteps
Underneath the floor
So apologetic
Can't happen no more

You don't know what happened here before

Lock box on your old life
I don't know where it is
It's behind a ???
So deep in your head

Lock box on your old life
I don't know where it is
Lock box on your old life
But I don't know where it is
