

## Neck Escaper

No Age

All these keys don't work  
None are coming through  
All the shit piled up  
Smells like someone's died

Don't forget to put the right side down  
If you don't, they won't be back for years  
Don't forget to put the right side down  
If you don't, they won't be back for years  
And that's why, I don't think  
You should go out alone anymore  
Take the keys out the merica still trip up  
And you spilled it all over us
