

Don't Get Better

No Authority

If anybody wants to know
Why it is i feel for you
Baby you're first thing on my mind
When no one else was down for me
You were always 'round for me
Helping me to fight for whats mine

So it ain't hard to see
How much you've done for me
There're some that never ever find
Someone who feels so good
Someone who understood
What's going on in my mind

It's the way that you do for me
It's the way that you're true to me
It's the wat that youu're loving me
It don't get better, no way it don't get better
It's the way that you're there for me
It's the way that you care for me
It's the way that you fight for me
It don't get better, no way it don't get better

You taught me how to let it go
Taught me how to let it flow
Showed me this with only a smile
The way you opened up to me
Trusted me so totally
I never felt i had to try

No more wishin, wishin on a star
'Cause all i ever wanted you are
You're all i need
Girl please believe, it's true
It gets no better than you
