

## Forth

## No Fun At All

Theories by the hundreds at the moment when I fell  
I'll leave out the details too elaborate to tell

I'm heading on down this road  
I'll carry you with me  
I'll carry you with me

Wherever it takes me, wherever it takes me  
I'll be there by your side  
Wherever it takes me, wherever it takes me  
I'll be there by your side

Forever in the making this too would come to pass  
Set those sights anew, alright? Let's just replace the cast

I'm heading on down this road  
I'll carry you with me  
I'll carry you with me

Wherever it takes me, wherever it takes me  
I'll be there by your side  
Wherever it takes me, wherever it takes me  
I'll be there by your side

I'm heading on down this road  
I'll carry you with me  
I'll carry you with me

Wherever it takes me, wherever it takes me  
I'll be there by your side  
Wherever it takes me, wherever it takes me  
I'll be there by your side  
I'll be there by your side  
I'll be there by your side
