

Simple

No Fun At All

I don't wanna know and I don't wanna go
To the land of heart and darkness
It's a bad day, you're rushing to a place
What you sow you'll have to harvest

But, celebration, suffocation
In a world where the simple matters
Occupation, termination
In a world where the simple matters

Everybody seems to shake their heads and wonder why
Everybody seems to shake their heads and wonder why

I don't wanna know and I don't wanna go
To the land of the great deceiver
Making me bleak, I'm looking at the freaks
And I sure don't wanna be there

But, celebration, suffocation
In a world where the simple matters
Occupation, termination
In a world where the simple matters

Everybody seems to shake their heads and wonder why
Everybody seems to shake their heads and wonder why

Celebration, suffocation
In a world where the simple matters
Occupation, termination
In a world where the simple matters

Everybody seems to shake their heads and wonder why
Everybody seems to shake their heads and wonder why
