

Bring Them Back

No Innocent Victim

Bring them back from where they're at

Were they too tired?
And just decided to quit?
They've received the mercy
What are they doing with it?
No more excuses
Don't want to hear reasons why
Search out the idle ones
So everyone's ready to fight
We must go
Bring back our brothers
We were told
Love one another

Bring them back from where they're at

We must go
Bring back our brothers
We were told
Love one another
Our prayer to be as one
Do not stop searching till it's done
Until we're together
Until we're together as one

Renewing hope and breaking walls down
Picking our brothers up off the ground

Let's bring them back (x3)
