

Something Falls

No-Man

You're still to near it to feel it..
you're still to near it to fear it.

Something is falling on you...
something is falling on me.
Just listen to the tree sing...
just listen to the tree.

I'd fall down on the forest groves
and kneel and pray for you.
I'd fall down on the autumn leaves
I'd cry and die for you.

Something is falling on you...
something is falling on me.
Just listen to the tree sing...
just listen to the tree.

You're still to near it to feel it..
you're still to near it to fear it.
